

WORLD-CLASS EDUCATION

Medical laser devices have been used in a wide range of ENT applications for many years. Today, the versatility of these devices is limited only by the user's knowledge and skills.

Through science and operational-based educational training for ENT specialists, laser treatments can be easily applied to this field.

Medency provides laser certification with the support of the best world-class Academies and Universities in the field. Increase the confidence with new technologies, establish your modern facilities.

Compact Laser Technology for Ear - Nose - Throat procedures

BEYOND THE PROGRESS

The concept of Medency design is based on extreme functionality, keeping the modern and ergonomic lines of the objects.

THE PORTABLE LASER YOU WERE WAITING FOR!

- Inflammation and pain reduction
- Less recovery time
- Strong Decontamination power
- Optical tips and wide range of accessories
- High working efficiency
- Faster procedures
- Photo Dynamic Therapy
- Intuitive and easy to use
- Ergonomic pen design
- Soft touch control
- Easy to clean

The use of new technological equipment and the adoption of innovative clinical methods have brought medical lasers beyond the current boundaries with a decisive impact on ENT applications.

Dynamo ENT is the result of Medency's effort to provide smart laser solutions to assist the ENT specialists in the best possible way.

The action of low level laser therapy provided by Dynamo brings significant benefits in all procedures that aim to eliminate inflammation, decrease recovery time and lead to an immediate pain relief post-surgical operation.

A new solution for advanced ENT practice!
